

LITTLE BABY QCPR 133 - 01050

Realistic and affordable BLS manikin for pediatrics with objective feedback, designed to improve training quality, learner engagement, and classroom efficiency. Instructors

Little Baby QCPR is a realistic and affordable BLS manikin for pediatrics with objective feedback. It improves training quality, learner engagement, and classroom efficiency.

- **Set up a class in no-time:** Use the one-click-connection to set up training. The QCPR app onboarding guides you through the setup of your classroom.
- **Engage your learners:** Increase engagement and confidence in both learner and instructor with a combination of realistic feel and intuitive feedback.
- **AHA Guidelines compliant:** With objective feedback on compressions and ventilations, Little Baby QCPR teaches all the key parameters of quality CPR as defined by the American Heart Association.

Practice:

- **Foreign body removal:** Choking is one of the biggest reasons for cardiac arrest in infants. With Little Baby QCPR, you allow learners to practice the not-so-gentle touch to see what it takes to remove airway obstructions.
- **Correct hand placement:** Spot incorrect hand placement with built-in sensors and QCPR app to instantly adjust learners' performance.
- **Act when it matters:** Practice correct compressions, ventilations, and foreign body removal so that learners act with confidence when it matters the most.

Features:

- Realistic anatomy of a 3-month-old baby
- Head-tilt with open/locked airway
- Feedback on hand positioning
- Visible chest-rise on ventilations
- See and feel the baby's ribs
- Landmarks, nipples, breast tip
- Limbs with realistic movement
- Durable construction with realistic length and weight
- 2 AA batteries will last for months and are easily changed
