

# CPR Training Manikins

## Little Junior QCPR 128 - 01050

Torso-only child CPR manikin with measurement and feedback delivered using Bluetooth and apps downloaded on smartphones and tablets  
Torso-only child CPR manikin with measurement and feedback delivered using Bluetooth and apps downloaded on smartphones and tablets

- Includes QCPR measurement and feedback delivered using Bluetooth and apps downloaded on smartphones and tablets, enabling:
  - real-time feedback on compressions and ventilations
  - post-event performance debrief, including CPR scoring and tips for improvement
  - details on compression release, depth and rate, ventilation volume, and number of compressions/ventilations/cycles
- Helps instructors increase effectiveness and efficiency in their courses by connecting with smartphones and tablets to deliver objective feedback and monitoring for up to multiple students at once, while creating an element of fun and engagement for students
- Allows an instructor to monitor up to six learners at the same time from the palm of their hand and view performance summary on Instructor App that highlights which students may require further guidance

### Single manikin includes:

- 2 faces
- 2 airways
- Jacket for manikin
- 6 manikin wipes
- Training mat/carrying bag

### Pack of 4 manikins includes:

- 8 faces
- 8 airways
- Jackets for manikin
- 24 manikin wipes
- Training mat/carrying bag
